FSC™ C218571

The mark of responsible forestry

- FSC™-certified pine and oak timber available on request
- Interior window sills
- Thickness 30 mm
- Depth 80–350 mm*
- Various corner shapes depending on the selected variant
- Wood types: pine, spruce, meranti
- Types of wood finish: colours from the lacquer palette, RAL colours, clear varnish, raw wood

*Upon customer request, bespoke window sills can be manufactured to a depth of up to 550 mm; however, due to the high risk of warping, these items will not be covered by our warranty.
