- ✓ we lacquer in the full RAL K7 colour palette and, on request, in other colours (use powder code)

0.75

Uw for Ug = 0.5
(Ultimate spacer)*

2

Gaskets

3

Chambers

Smaller structure height, smaller width of the movable posts and very good thermal parameters – these are just some of the features of the Decalu 88 standard system.

In the InLine version of the system, the sash and frame are flushed, creating a flat surface.

*The above value of Uw is given for a reference window with dimensions of 1230 x 1480 mm, in the best thermal variant.
