

Emergency battery

- ✓ manufacturer: Somfy
- ✓ output voltage: 9.6V
- ✓ min. autonomy: RTS drive (5 cycles a day), io drive (3 cycles a day)
- ✓ the energy reserve is sufficient to perform 10 cycles (opening / closing) in 24 hours
- ✓ automatically charges fully in 48 hours

1600

capacity (mAh)

48

charging time (h)

It allows the gate drive to operate during a power failure. Indispensable if the garage door is the only access point to the building (separate garage).
