

HST 85

- ✓ profile with a construction depth of 197 mm
- ✓ maximum sash weight 400 kg
- ✓ maximum size of the construction – 6700 x 2700 mm (white constructions)
- ✓ maximum size of the construction - 6700 x 2500 mm (constructions in color)

1-2

Guiding Rails

Energy-saving sliding doors system. It enables the construction of large-format glazing while maintaining the best thermal insulation parameters. As the only one of the HST systems, it allows the installation of Aluskin aluminum covers.
