

Modernslide

- ✓ frame with the construction depth from 73 to 196 mm
- ✓ sash with the construction depth of 44 mm
- ✓ glazing with glass units of 24, 28 or 32 mm
- ✓ system with a thermal break
- ✓ we lacquer in the full RAL K7 colour palette and, on request, in other colours (use powder code)

1.7

Uw when Ug = 1.1

2-3

Guiding Rails

It is possible to hide the sash almost completely in the wall thanks to Modernslide. Incredibly modern system of light and energy-saving sliding doors. The system can be used to design an extremely aesthetic solution such as Galandage. Thanks to it, you can maximize the opening dimensions when sashes are open.

Uw = 1.7 W/(m²K)* when using the 4 / 16Ar / 4th package – Ug = 1.1 W/(m²K), argon-filled, with an aluminum frame.

*Coefficient calculated for a door with dimensions of 2200 x 2200 mm.
