

Muntin bars

Muntin bars: Internal decorative

- ✓ material: aluminium
- ✓ recommended muntin bar widths: 8, 18, 26, 45 mm
- ✓ colour options for 8 mm muntin bars: gold, matte gold, matte silver, white
- ✓ colour options for wider muntin bars: any veneer package

Aluminium-made, our internal decorative muntin bars are a stylish addition that gives windows a unique character. We recommend opting for one of the four most popular widths to achieve the best effect.

The 8 mm wide muntins are available in several attractive colours, and for wider muntins there is a palette of veneers to choose from. They allow the creation of a beautifully cohesive composition or introduce bold contrasting elements into the glazing.
