- ✓ can be moved or disassembled quickly
- ✓ compatibility with the anti-smog net
- ✓ now available for Naturo 68, 76 and 88 wooden windows

A system of extruded aluminium frame mosquito nets with brush seals. They are mounted on the window frame using dedicated brackets.

The Prime mosquito net can also be used on finished windows in the **Naturo 68**, **Naturo 76** and **Naturo 88** systems. The first two use 18 mm safety mounting brackets with springs and additional brush seals to protect the wood. For Naturo 88, the mounting elements are 19 mm wide.
