

Sliding Mosquito Net

- ✓ Frame: extruded aluminum profile
- ✓ coating: powder varnish in any color from the RAL palette
- ✓ Mesh: PVC coated fiberglass in black or gray color
- ✓ available two gaskets colors: gray, black
- ✓ installation: external, guides screwed to the window frame
- ✓ compatibility with the anti-smog net
- ✓ possibility to mount two sashes

The sliding mosquito net system uses a mechanism of parallel guides at the top and bottom of the frame. This solution is dedicated to HST and PSK sliding systems.
